0 = NO  
1 = YES

(\$) blood sugar at exam 12 was not included in the calculation of these new definitions

\*\* blood sugar was not measured at exam 24, however treatment variables were collected at exam 24 (taking oral hypoglycemics and/or insulin); for each person that attended exam 24 there is a treat24 variable value

NOTES:

- treatment is defined as taking insulin and/or oral hypoglycemic agent
- blood sugar measurement at exam 11 was taken but it was after glucose challenge
- blood analysis: sugar not measured at exam 5 or exam 7 or exam 24
